### Run the bases

In baseball, if you hit a homerun, you must still run to all bases, then back to home-plate, for the score to count.

Likewise, you've hit a homerun by taking this course! But it will not count for anything unless you "run the bases" to keep moving forward.

#### **Directions**

Follow the prompts to determine and plan three strategies you will do over the next four weeks. Then, determine how you will celebrate your progress!

### 1. Run the bases...

	"1 <sup>st</sup> Base"	"2 <sup>nd</sup> Base"	"3 <sup>rd</sup> Base"
A. Description of strategy			
B. Reason for choosing			
C. What will you do?			
D. When will you do it?			
E. How will you ensure success?			

### 2. Return to home-plate... and celebrate!

Describe how you will reward yourself for moving forward:

## **S**corecard Review

Congratulations, you've reached the end of this course!

Now, it's time to compare your pre- and post-Scorecard results to analyze your progress. If you took the Scorecard in the software, you can access your results by:

- o Clicking the trophy icon in the upper right of the software.
- Selecting "Pre/Post Test" to view the graph of your results.

#### **Analysis Questions**

To best identify your progress, ask yourself the following questions:

- What improvements can you see in your post-Scorecard results compared to the pre-Scorecard?
- How have the changes in your scores influenced your approach to studying or your confidence in the subject matter?
- What strategies will you adopt moving forward based on your score analysis?
